Warranty⁷

12-month/15,000-mile basic limited warranty*

36-month/36,000-mile limited warranty on structure⁸

10-year limited parts and labor warranty on roof skin⁸

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.

2. Vista floorplans feature a wide-body design - over 96" in making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.

3. The load capacity of your motor home is determined by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.

4. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.

5. Capacities shown are tank manufacturers' listed water capacity (WC). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

6. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GVWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

7. See separate chassis warranty.

8. See your dealer for complete warranty information.
