DRIVE ...

Truly a joy to drive the Vista Mini is fully equipped.

- Driver / passenger airbag
- Power steering
- Easy to read gauges
- In dash stereo
- Climate zone control
- Adjustable seating
- Tap shift,
- 5-speed transmission
- Unmatched visibility

GALLEY CONVENIENCE...

Our wide-open galley offers all the comforts of your kitchen at home. 3-burner high performance range; 2-door, 2-way refrigerator and large half time oven, you will be able to prepare any of your family's favorite meals.

SPACIOUS LIVING...

The Mini™ is mini in name only, Spacious 7' tall ceiling and 34" of headroom over the bunk provides comfort day and night. Open living area that incorporates a spacious slide room, large European windows and residential style furniture make home away from home very comfortable and functional.

Euro-style cabinets with radius corners and faces conveniently placed for easy access creates a beautiful interior with the most usable storage in it's class.

HARDWOOD CABINETRY

Our residential style cabinets are constructed of hardwood doors and fronts that are predrilled and screwed then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

COMPETITOR'S CABINETRY

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.

SUPER STRENGTH TRUSS SYSTEM 8" C CHANNEL EXTENSION

The super strength truss system is unmatched in the industry. The structural subfloor foundation begins by Huck fastening a network of integrated steel trusses to the chassis. Specifically designed to distribute and transfer the tremendous forces from the coach to the chassis. These trusses are individually tested to withstand 4,000 pounds each.

GALVANIZED STEEL STORAGE COMPARTMENTS

Seamless, galvanized steel storage compartments safely cradle your valuables. Rust protective, water proof Poly-Tech sealed for extended life and a quiet ride.

- **Excellent Weathering** - Virtually impervious to sun, rain and snow Poly-Tech maintains the vehicle's quality appearance enhances its resale value.
- **Tear Resistance** - Unlike rubber roofing, Poly-Tech's abuse resistant textured finish resists tearing, a condition that can cause leaks and lead to expensive repair
- **Low Maintenance** - Eliminates the need for large amounts of sealant around several roof fixtures. Road grime can easily be removed with normal cleaning maintenance. Rubber chalking due to solar breakdown of the roof surface is eliminated, preserving the original appearance and resale value of the vehicle.
- **Stain Resistance** - Designed to resist staining on the roof and sidewalls to maintain a quality appearance.
- **Structural Integrity** - Unlike conventional EPDM rubber roof membranes, Poly-Tech is a structural component of the roof system.

Unlike traditional plywood and foam seating Comfort Plus Seating features the strength of steel and the comfort of a sprung dinette cushion.

Huck fasteners can't be over or under tightened ensuring the strongest and longest lasting connection of the truss system to the chassis.
