

M-B CRUISER

BY FOREST RIVER

POWERED FOR PERFORMANCE. ENGINEERED FOR ECONOMY.

M-B CRUISER
BY FOREST RIVER

The M-B Cruiser is powered by a Mercedes-Benz turbo charged 5-cylinder diesel engine that feels more like a V-8. But unlike a V-8, it offers fuel economy of approximately 22 miles per gallon with a range of over 500 miles. With a body width about the same as a conventional van, the M-B Cruiser makes maneuverability and parking incredibly simple.

Headroom in the M-B Cruiser is ample and clever use of space provides many of the amenities of large motorhomes, including a roomy dinette, sofa, a full galley, overhead cabinets, and a bathroom with separate shower.

The floor plan of our motor home does not have any restrictive interior walls to make one feel confined. The large windows enhance this "open feeling". A large side door adds to the spacious feel. You'll feel you're in a much larger motor home due to our well thought out floor plan.

Fantastic Fans significantly increases air circulation and the removal of condensation as compared to the industry's standard smaller power bath vent.

Our whole house water filtration system removes any bad taste and odor as well as bacteria and other contaminants for 10,000 gallons before changing the filter. The WaterPur™ Filtration System has been awarded the WQA Gold Seal for meeting and exceeding the industry standards for performance, capacity and integrity. This will ensure that you will have a safe and healthy camping experience. For more information go to www.wqa.org.

(Left) The Ergonomically designed cockpit of the M-B Cruiser puts all the controls at easy access to the driver. M-B Cruiser offers outstanding window visibility in the drivers seat giving the driver more confidence behind the wheel. The optional features of the real leather captain chairs and high gloss carbon fiber dash kit adds appeal to the Mercedes-Benz minded customer. The optional carpeted floor mats add the final touch.

(Right) The separate dinette and table allows for convenient and easy usage while traveling. An exclusive two dinette floorplan opens the possibilities for entertaining.

INSPIRATION COMES STANDARD — BUT THAT'S JUST THE BEGINNING

Forest River has yet another exclusive feature to offer: One year of free roadside assistance will be given to every M-B Cruiser customer. This is just one more way to say "Thank you" and to ensure an enjoyable camping experience.

(Left) The M-B Cruiser packs a lot of value into their features. Fold down the built-in 15" LCD/DVD TV from the ceiling and draw the day/night shades with backlighting to create your own screening room. Unfold the bed to a full 40" x 76" to sleep two comfortably. In this floorplan, convert the dinette to a bed for a third person.

(Below) Our kitchen boasts a 2.7 cu. ft. LP 110 refrigerator with freezer space and has easily accessible operating controls. Below counter storage includes four large storage bins and a larger, separate area below for your pots and pans. The M-B Cruiser has enormous windows in the floorplan including a full window at the dinette. In the rear of the coach, you'll find the bathroom has plenty of space for any person to use.

(Left) Step into the shower and you will find the standup height shower has an easy access fiberglass sink and a skylight providing extra light and headroom. We use a special two-piece fiberglass construction to provide worry-free maintenance and keeps your bathroom more sanitary. Our rear bath is an industry exclusive!

(Below) The generator, located at the rear passenger-side, is equipped with fireproof/sound deadening insulation and allows for easy convenient access to check the oil. It also gives excellent accessibility for any other maintenance needed. Our competition has their generator located completely under the floor behind the rear axle. Imagine checking the oil on a cold rainy, muddy, day!

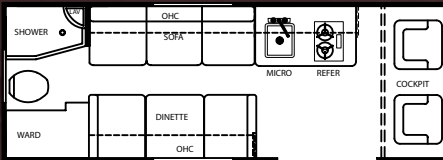

The eye catching exterior graphics and an aerodynamic design set the M.B. Cruiser apart from its competitors. The new automotive sleek design of the full body ground effects (optional equipment), upgrades the overall appearance of the vehicle and allows for easier access into the motor home.

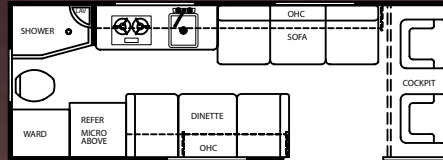

JUST THE BEGINNING.
