

THE NEW 2007

See Ya!

5000000 Long!

By Alfa

Floorplan is the key to livability. The 2007 See Ya So Long features 413 square feet of carefully designed living space. The improved slide-out is 24 feet long, and the 90-inch headroom allows you to stand up straight in the slide-out without hitting your head. This innovative design also allows us to introduce to the motor home a unique and exciting feature---a hallway! This hallway enables you to access the bedroom without having to walk through the bathroom, and gives you the option of creating a master bedroom suite. It's the most ingenious floorplan ever designed within a motor home. We love it, and we know you will too.

More room also means more galley space! Our galley counter top is deep enough to allow you to fit your toaster and coffee maker on the countertop behind the sink. We still have the built-in sink waste basket that is accessible from the outside. What's new is the added pop-up counter located inside a large drawer, which allows for more food preparation space. We have also added more space in our many galley drawers.

The Alpine Blackbird PMD-B100 GPS is lightweight and removeable, making it easy to travel with you in your coach, tow vehicle or on your hikes. The unit includes maps of the U.S. and Canada and is pre-loaded with 6 million points of interest. It is also touch screen operated, so it's easier for the navigator to use while traveling.

Another ingenious addition to the coach is the center island, which when the slide is pushed out, reveals his and hers wardrobes, even more large storage drawers, and upper cabinets that are the perfect size for storing sweaters! *Only in an Alfa!*

We've added a stacked Whirlpool washer and dryer that are more functional than the traditional combo washer/dryer, thus allowing you to wash larger loads and cut the drying time as well. Plus, we've hidden the washer and dryer within an attractive wooden cabinet, conveniently close to the clothes hamper, wardrobe and drawers.

Did we mention the bathroom? We have really outdone ourselves with this one! It is a fully functioning house bathroom, complete with 2 entry doors, making it possible to create a bedroom suite. Not only that, but we have made it so that the bathroom doesn't have to be a constant eyesore during your entire vacation. What we've done is created a second entry door that, when closed, keeps the bathroom out of view from the front of the coach. *Only in an Alfa!*

Our bedroom design is also new! It now features the innovative and exclusively designed Space Room! It's called that because it is designed with you and your living space in mind. It's about choices! This smart design creates a second sitting room that can be used as a computer desk with a printer! It's also a great vanity space! The large windows provide natural lighting, perfect for applying your make-up, while the outlets in the vanity drawers make it easy to dry or curl your hair! *Only in an Alfa!*

That's just the inside of the coach! On the exterior we've added newly designed trunk trays. One comes equipped with a 20" Flat Panel LCD TV, 4 folding chairs and 2 tables, Temperature Controlled Cooler, and a Weber BBQ! The other tray slides out in both directions for easy access to your gear. At the back of the coach the power cord compartment door has become the perfect place to stow extension cords* and water hoses. You should know by now, it's *Only in an Alfa!*

*Extension cords not included.

SPECIFICATIONS

MODEL # : 1007-SY40LS
 CHASSIS MAKE: FREIGHTLINER
 CHASSIS MODEL: XC RAISED RAIL
 ENGINE : 350 HP 860 lb/ft @1,440 CAT *
 TRANSMISSION : 6 SPEED AUTO
 WHEELBASE : 252'
 OVERALL LENGTH 39'-11"
 OVERALL HEIGHT : 13'-3"
 INTERIOR HEIGHT : 7'-6"
 OVERALL WIDTH : 102"
 INTERIOR WIDTH : 96"
 SQUARE FOOTAGE : 400

WEIGHTS

G.A.W.R.-Front : 12,000 lbs
 G.A.W.R.-Rear : 20,000 lbs
 U.V.W. : 27,110 lbs
 G.V.W.R. : 32,000 lbs
